Supervision agreement

To conduct doctoral research, the candidate and her/his nominated thesis committee members who have been appointed by the graduate committee sign a supervision agreement.

The applicable doctoral or examination regulations (hereafter: doctoral regulations) conclusively define the implementation of the doctoral process, including the doctoral studies and in particular the rights and obligations of the doctoral candidate. This Agreement is intended to define in more detail the doctoral regulations and hence to guarantee the scientific support required for the doctoral project to succeed, also participation in a doctoral preparation that is adequate in terms of content and methodology. The following is agreed for this purpose:

1. The supervisors provide a binding assurance that they will supervise the doctoral candidate. (This is without prejudice to doctoral regulations defining conditions under which the supervisory relationship can be dissolved.)
2. The doctoral candidate shall enrol and provide proof of health insurance, and shall participate in the courses offered within the doctoral studies/doctoral programme.
3. The doctoral candidate shall regularly, but at least on one occasion each year, report to the thesis committee concerning the preparation, development and implementation of the research project (progress report). This meeting shall be based on a work plan (GFA regulations appendix 1), which can be modified, especially on the request of the doctoral candidate, by mutual consent with the thesis committee. The report may also be given within the framework of a colloquium or a comparable event.
4. The doctoral candidate must, on one occasion each year, document in written form the progress report (updating the work plan) and the meetings held in this respect.
5. The thesis committee undertakes to regularly check preparation of the progress report and the (scheduled) progress in work, and, in a suitable scope, to comment on – verbally or in writing – the contributions submitted at the respectively agreed meeting dates, also to check adherence to the work plan.
6. The faculty will make efforts to find an alternative, suitable supervisory relationship to match the chosen subject in the event that the supervisory relationship is dissolved for reasons that are out of the control of the doctoral candidate.
7. The doctoral candidate shall become a doctoral member of the GFA upon admission to complete the doctoral project in a doctoral programme included in the Graduate School in Forest and Agriculture Sciences (GFA). The obligations include in particular to inform the office of the GFA of any changes in the topic of the thesis, status at the University of Göttingen or address (cf. GFA regulations appendix 2).
8. (Agreement on resources that are made available to the doctoral candidate.)
