Glossary:

Tutorium / Study group / tutorial

Courses of basic studies which accompany other courses such as lectures, exercises or proseminars, are mostly led by students from more advanced semesters, and in which practical exercises are carried out (not available in all subjects).

Hauptseminar / Advanced seminar

Course during the advanced study period, requiring sound knowledge in the application of subject-related methods, sometimes even requiring prior completion of stage-1 studies.

Lehrveranstaltung / Course

General term for teaching and learning events at a university such as lectures, seminars, tutorials or exercises.

Proseminar

Course during basic (stage-1) studies to introduce students to scientific problems, techniques of scientific work and other areas relevant to advanced studies.

Ringvorlesung / Lecture series

An often interdisciplinary series of lectures on a general topic held by different speakers.

Seminar

A seminar is a course in which students ideally contribute a substantial part themselves, by way of presentations and statements; depending on the stage of studies, a distinction is made between proseminars, advanced seminars and post-graduate seminars.

Übung / Tutorial / exercise

Mostly offered in conjunction with a lecture; here practical implications are explained or the application of what has been learned is practised.

Vorlesung / Lecture

Course of basic or advanced studies, in which the lecturer generally speaks about scientific topics and the students listen; discussions are rare.
