

Authorized examiners

Master of Science in Developmental, Neural, and Behavioral Biology

With status from: April 2025

Note: Additionally to the specific advanced modules, all people listed have the authorisation to examine M.Bio.331 and master's thesis.

* If the lecturers of both planned laboratory practicals are primarily assigned to the same advanced module you can apply to use the associated examination authorisation, depicted in square brackets []. The two examiners must belong to different departments.
